WORK EXPERIENCE

Senior Full Stack Developer   **January 2024 – Present**

Planally Sdn. Bhd.

Kuala Lumpur, Malaysia (Remote)

Role descriptions:
- Diagnose and resolve complex bugs to ensure seamless application performance and user experience.
- Design and implement new features to enhance platform functionality and usability.
- Refactor legacy code for better readability, maintainability, and performance optimization.
- Develop and maintain automated test suites, improving code quality and reducing manual testing efforts.
- Conduct thorough code reviews on pull requests to maintain coding standards and ensure high-quality deliverables.
- Provide daily progress updates and collaborate with the CTO to align development tasks with business goals.

Full-Stack Developer   **September 2021 – November 2023**

PT. Adaya Solusi Teknologi

Bandung, Indonesia

Role descriptions:
- Developed dynamic and responsive web applications tailored to client requirements.
- Built and maintained scalable microservices with efficient database interactions.
- Provided debugging and technical support to ensure timely issue resolution and code quality improvements.
- Mentored and guided junior developers, fostering skill growth and high-quality code contributions.
- Collaborated with the project manager to design solutions, analyze problems, and implement client-requested features and enhancements.
- Managed code repositories and branches, ensuring streamlined version control and effective team collaboration.

Web Developer   **August 2017 – August 2021**

PT. Jaringan Mega Komputasi

Bandung, Indonesia

Role descriptions:
- Developed and maintained a logistics platform, stock management system, payment gateway, and various other applications, ensuring optimal performance, scalability, and user experience.
- Resolved bugs and optimized application performance, reducing load times and improving responsiveness.
- Designed and implemented responsive and visually appealing landing pages to enhance client engagement and user experience.
- Collaborated with clients and supported the project manager in analyzing problems and gathering requirements to ensure solutions aligned with client needs and business goals.
- Mentored and supported junior developers, fostering skill growth and ensuring quality code contributions.

Junior .NET Developer   **August 2016 – July 2017**

PT. Bentang Mitra Guna

Jakarta, Indonesia

Role descriptions:
- Developed employee management platform using ASP Web Forms, jQuery and Microsoft SQL Server Stored Procedures.
